

(Title)

Startup of Operation of POM Producing Company in China

November 29th, 2024

Global Polyacetal Co., Ltd. (Headquarters: Minato-ku, Tokyo; President: Ichiro Koyanagawa; hereafter referred to as "GPAC") has completed preparations for the first operation of its polyacetal (POM) producing company, DP Engineering Plastics (Nantong) Co., Ltd., in which GPAC has an indirect investment in China. GPAC is pleased to announce that commercial operations at the company will commence at the end of November 2024.

Manufacturer: DP Engineering Plastics (Nantong) Co., Ltd

Address: No. 18, Tong Xiu Lu, Nantong Economic & Technological

Development Zone, Nantong City, Jiangsu, China

Investor: P Holdings, Inc. (Polyplastics Co., Ltd. / Global Polyacetal Co., Ltd.)

GPAC group has production companies located in Thailand and Korea. By adding a new production site for Lupital™ and KEPITAL™ in China, we are enhancing our global production and supply system (which has an annual supply capacity of approximately 200,000 tons per year). This expansion will also contribute to further developing our growing polyacetal business.
